<b>Office Action Summary</b>	<b>Application No.</b> 10/678,298	<b>Applicant(s)</b> SHIMAZAKI ET AL.
	<b>Examiner</b> DADY CHERY	<b>Art Unit</b> 2616

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(o).

**DETAILED ACTION**

***Response to Amendment***

This communication is responsive to the amendment filed on 03/21/2008. Claim 1-62 remain in the application.

***Response to Arguments***

1. Applicant's arguments filed 03/21/2008 have been fully considered but they are not persuasive. A call was made to Gregory A. Stobbs on 09/12/2008 to clarify the subject matter claimed; unfortunately the response was not satisfied. The examiner attempts to enumerate different ambiguity in the claimed invention, but this is not considered as an exhaustive list. Therefore, the applicant obligates to correct every error in the instant application for further advance prosecution.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
3. Claims 1 -62 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the virtual node" in line 23. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "other nodes information" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "the present node" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 1 recites the limitation "LSP" in line 7. There is insufficient antecedent basis for this limitation in the claim.

The examiner suggests the following language into claim 1:

"means for mutually interchanging with other nodes link state information about the present node and links which are connected to the present link state information node means for storing said link state information for one or for all of the nodes within said network which has been obtained by said interchanging means;  
means for selecting a path for a LSP (Label Switch Path ) of one or a plurality of types of layer, based upon said link state information which has been stored in said storing means according to a LSP establishment request; and  
means for changing the path which has been selected and established by this selection means, according to an LSP change request, based upon said link state information which has been stored in said storing means".

Claim 1 recites the limitation "upon link state" in lines 9 and 12 etc... There is insufficient antecedent basis for this limitation in the claim.

Claims 1, 27, 36 38 and 47 as written are unclear. The examiner requests clarification for all the ambiguity in the instant application for example at least the following limitations : " if links exist which connect the interiors of the virtual nodes and the exterior, defining the contact points between these interiors of the virtual nodes and the exterior as interfaces of the virtual nodes".

Regarding claims 27, 36, 38, 47 and 49, the examiner requests the applicant to clarify the preamble and the body of the claims.

Regarding claim 19, the examiner requests that the applicant add limitations of claim 1 into claim 19.
